· WEDDING FAQ ·

WHAT IS 'FULL EVENT COVERAGE'?

It varies from wedding to wedding according to your needs. Plan on approximately one hour for getting ready pictures, an hour and a half for portraits, the length of your ceremony, any transit time, and about two and a half hours of reception coverage.

DO YOU BACK UP THE IMAGES?

Your files are safe with us. We are meticulous (to the point of obsession) about backing up your images. Traci's main camera even writes to two memory cards at the same time, so if one fails, the other still has your images.

DO YOU HAVE INSURANCE?

Our business is insured. If our tripod attacks your flower girl, if a tornado rolls through town and demolishes our many back ups, if Nic (okay, it's way more likely this would happen to Traci) opens a door and the entire room collapses...we're insured. No matter which photographer you decide to hire, make sure they're insured!

DO WE RECEIVE THE PHOTO RIGHTS?

Absolutely! Approximately six weeks after the wedding you'll receive your disc of images as well as an online proofing gallery and slideshow. All of the images on your disc will be ready to print. They are color corrected and prettied-up to meet our standards.

HOW MANY PHOTOS CAN WE EXPECT?

Every wedding is different, but you can expect to receive 700-1300 images. About 150 of our favorites will receive VIP treatment and get extra retouching or color correction.

DO YOU HAVE BACKUP EQUIPMENT?

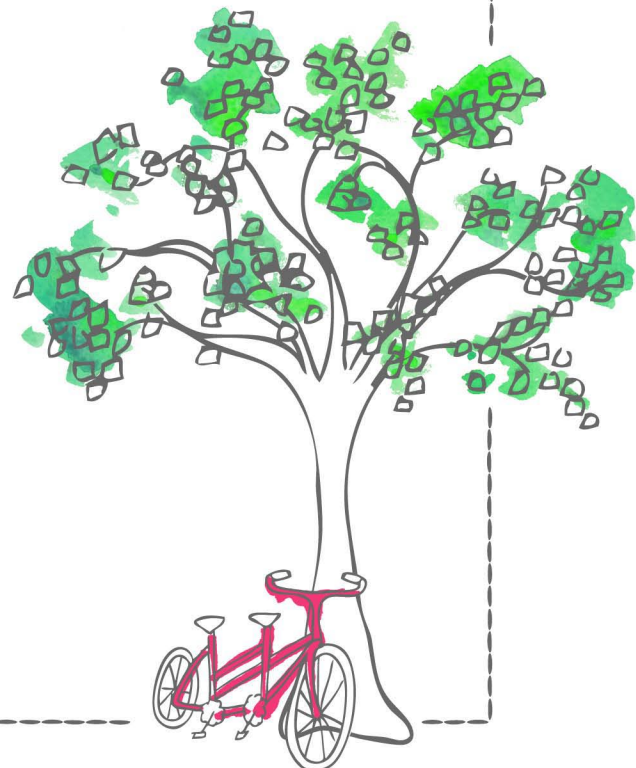

We use Nikon professional digital camera equipment and always bring back-up cameras, lenses, flashes, and memory cards, so you don't need to worry about our equipment failing on your big day! Having two photographers also builds another level of back-up into your wedding coverage.

IS THE PHOTOBOOTH INCLUDED?

Many of our couples choose to have a photo "booth." We bring a backdrop, you provide the props, and Traci sets it up during the open dancing. Since one photographer stays at the booth to take the photos, photo booths are only available in two photographer packages.

CAN WE SKIP THE ENGAGEMENT PICS?

We strongly recommend the engagement shoot, as it's a great chance to work together before the wedding. However there is a \$100 discount if you should choose to skip the shoot.
